Work Experiences

Cloud Custom Solution *Arizona, USA (Remote)*

Senior Software Engineer (Part Time, contract) *Aug 2024 - current*

>> Project Modernization: Upgrading a legacy project from Python 3.6/Django 2 to Python 3.12/Django 5.1 and replacing Google Task with Celery for enhanced task management.

Savvie International Corp *Canada (Remote)*

Senior Software Engineer (Full Time, contract) *Apr 2024 - Aug 2024*

>> ETL Pipelines & Vector Search: Built ETL pipelines with Snowpark, AWS Batch, S3, ECS, and integrated vector search for e-commerce using Pinecone, FastAPI, and Sentence Transformers.
>> ML Model Development: Deployed ML models for product categorization using TensorFlow, Keras, scikit-learn, and NLP tools like Sentence Transformers.

W3Engineers Ltd *Dhaka, Bangladesh*

Senior Software Engineer *Apr 2023 - Mar 2024*

>> Data Pipeline Architecture: Designed ETL pipelines with Python (NumPy, Pandas, PyArrow, PySpark) and AWS (SQS, Glue, S3, RDS, DynamoDB) for efficient data management.
>> Full-Stack Development: Led Django projects, modernized legacy codebases, and built scalable, API-driven infrastructures using Kubernetes, Docker, and AWS.

EkkBaz Ltd *Dhaka, Bangladesh (Remote)*

Senior Software Engineer & DevOps (Full Time, contract) *Apr 2022 - Dec 2022*

>> Startup Impact: Contributed to EkkBaz, a B2B marketplace app for small businesses, by migrating legacy APIs to Python/Django and introducing automation tools for better workflows.
>> Backend Development: Built RESTful APIs with Python and Node.js, integrated SQL/NoSQL databases, and streamlined team collaboration using MS Teams and Planner.

Cloud Custom Solutions *Arizona, USA (Remote)*

Full Stack Web Developer (Full Time, contract) *Jan 2019 - Feb 2021*

>> Application Development: Collaborated remotely with PM Ben Fatola at Cloud Custom Solutions, building impactful apps like LinkFusion, Procurement Solutions, and Champion, including a US Army project using Django and PostGIS.

>> Full-Stack Expertise: Managed end-to-end development with Python Django, DRF, PostgreSQL, Celery, Elasticsearch, React, AWS, and Docker, enhancing technical versatility and problem-solving skills.

Scom.ca (Paul Kudla) *Ontario, Canada (Remote)*

Full Stack Web Developer (Full Time, contract) *May 2014 - Sep 2017*

>> Collaborative Development: Worked with Paul Kudla, an experienced IT consultant, to design and develop web applications for clients like Premier Elevator, Volvo Trucks North America, and iMeter24, addressing business process limitations.

>> Custom Solutions: Delivered management systems for inventory, procurement, sales, and electric meter interfacing using Python, Django, PostgreSQL, Bootstrap, Angular, Elasticsearch, and Git, enhancing operational efficiency

Supreme Support Pty Ltd *Dhaka, Bangladesh*

Python Developer (Part Time) *Sep 2013 - Apr 2014*

>> Automated Testing & Feature Development: Conducted automated testing and implemented complex features to ensure robust application performance.

>> US Army Project: Resolved issues in a location-based PostGIS application for the US Army, overcoming challenges in a previously incomplete project.

Publiseek *Dubai, UAE (Remote)*

Software Engineer *(*Full Time, contract*)* *Apr 2013 - Aug 2013*

>> Publiseek Web Application: Developed a scalable Django-based web app with custom features, third-party integrations, and secure data management, streamlining operations and enhancing their digital presence.

NewsCred Inc (Currently its Optimizely) *Dhaka, Bangladesh*

Software Developer *Jan 2012 - Mar 2013*

>> Backend Development: Contributed to developing CMS and control panels at NewsCred as a backend developer using Python, Django, and PostgreSQL.

>> Process Improvement: Introduced Behavior Driven Development (BDD) using Selenium, Lettuce, and Cucumber, enhancing project quality with senior guidance.

Technical Skills

Backend Expertise	Python, Django, FastAPI, NodeJS, Express, Celery, BeautifulSoup
Full-Stack Exposure	TailwindCSS, Bootstrap, MaterialUI, React
Data Management	PostgreSQL, MongoDB, ElasticSearch, Redis, GraphQL,, Snowflake, Qdrant, Pinecone, FAISS etc
DevOps and Cloud Services	Shell, Docker, SAM CLI, AWS, Terreform,
Data Engineering / ML Tools	Numpy, Pandas, Polars, Hugging Face, Ollama, Langchain, Scikit-learn, Keras etc
3rd party tools and APIs	Twilio, Whatsapp Business API, Discord Bot, Slack Bot

EDUCATION

Shahjalal University of Science and Technology Sylhet, Bangladesh
Post Graduate Diploma In Software Engineering. *July 2006 - June 2007*

Shahjalal University of Science and Technology Sylhet, Bangladesh
CCNA Certification (One year training course). *Dec 2004 - Dec 2005*

National University Of Bangladesh Gazipur, Bangladesh
BSc in Physics (3 Years honors). *Jan 1999 - Dec 2004*

RECOMMENDATIONS

Ron Dyck - *CTO, Entrepreneur, Savvie International Corp*

- Mamunur Rashid was a great asset to our team. When thrown some very challenging problems, I found him to be very resourceful and hard working. I would highly recommend him.

Iraj Islam - *Co-founder and CTO of NewsCred.com*

- Mamunur Rashid is an intelligent, hard working and driven software engineer. During his time at NewsCred he was both a Software Engineer and a SQA Engineer. He contributed to feature development of various products and also made sure quality was maintained. We are grateful for his time at NewsCred and wish him a bright future as a successful Software Engineer.

HOBBIES & INTERESTS

Hobbies: Travelling
Interests: Learning new Tools, Blockchian
